

**Lake Country® and LAND O LAKES® Lamb Feed Voluntary Recall Update**  
***Elevated Levels of Copper Found***

**Three Lamb/Sheep Products Added to Recall as Further Precaution**

**June 27, 2008**

Three weeks ago, the Land O'Lakes Purina Feed plant in Fremont, Neb., initiated a limited voluntary recall of four lamb feed products, packaged in 50-pound bags, due to the potential for higher than acceptable levels of copper.

The products and lot numbers involved in the recall were produced at the Fremont, Neb., feed plant only, and are described as:

<b>Formula No.</b>	<b>Item No.</b>	<b>Description</b>
LC59	1311317	<b>Lake Country® Honor Show Lamb Grower DX Pellet</b>
LD51	1311319	<b>Lake Country® Honor Show Lamb Starter DX Pellet</b>
LF52	1311326	<b>Lake Country® Honor Show Lamb Grower B30 Pellet</b>
L399	1851800	<b>LAND O LAKES® Lamb Grower-Finisher B30</b>

Lot numbers range from Jan. 1, 2008, to May 30, 2008, and are listed on the bag as 8JAN01FRE1 to 8MAY30FRE1 inclusive.

On bagged products, the lot numbers are printed on both the tag and sewing strip of each bag. Lot numbers are formatted as follows: Example 8MAY30FRE1 – 8=Year / MAY= Month / 30=Day of Month / FRE1=Plant Code.

The first two products included in this recall (Honor Lamb Show Grower DX Pellet and Honor Lamb Show Grower Starter DX Pellet) were previously announced in a June 6, 2008, news release and retailer contacts – and were distributed only in the following areas: Nebraska, north central Kansas, northwest Colorado, southern Minnesota, and western and south central Iowa.

The latter two products (Honor Show Lamb Grower B30 Pellet and Lamb Grower-Finisher B30) were distributed only in eastern Nebraska, northeast Kansas and western Iowa.

The recall was initiated after receiving a customer complaint regarding lamb mortalities. The presence of copper above acceptable levels can cause serious health issues, and at high levels, mortality in sheep.

### **Three Lamb/Sheep Products Added to Recall as Further Precaution**

Effective today, as an extra precautionary measure, and while no customer concerns have been received, Land O'Lakes Purina Feed has recalled three additional products because of the potential for elevated copper levels. These products and lot numbers were also produced at the Fremont, Neb., feed plant only, and are described as:

<b>Formula No.</b>	<b>Item No.</b>	<b>Description</b>	<b>Lot No.</b>	<b>Ship Date</b>
L398	1852700	Special Lamb Creep B90	8FEB01FRE1 8FEB26FRE1 8MAR27FRE1 8APR10FRE1	
L328	1860210	Sheep Balancer (unmedicated)	8APR15FRE1	
3LN7	1860220	Sheep Balancer B136	8MAR20FRE1	
3LN7	1860220	Sheep Balancer B136 (bulk)		April 16, 2008 May 1, 2008

These additional products were distributed only in eastern Nebraska, northeast Kansas and western Iowa.

**Retailers Notified**

Retailers have been contacted to quarantine all of the products above and notify customers who purchased the products. The affected product should not continue to be stored or used. Customers who purchased these products will receive replacement product.

For more information on the product recall, contact Customer Service at 1-877-585-2365.
