

Powerful Performance. Winning Results.

Ewe Pellet

Honor® Show Chow® Ewe Pellet provides supplemental protein, minerals and vitamins for gestating and lactating ewes. This non-medicated pellet contains all the vitamins and minerals necessary for muscle growth and body condition.

Healthy ewes produce healthy show lambs. Get your gestating and lactating on Honor® Show Chow® Ewe Pellet today!

FEATURES	BENEFITS
Fully fortified with all essential vitamins and minerals	For excellent muscle growth and body condition
Pelleted feed containing 16% crude protein and 4% crude fat	Correct amount of protein and energy for gestating and lactating ewes
 Confidence at the gut level [™]	A true, fully fermented yeast culture developed specifically for optimum animal nutrition. Research proven, Diamond V has a unique ability to enhance ration digestibility, palatability and intake by delivering a rich, all-natural nutrient source to the animal's digestive bacteria.
	Research has shown that TASCO® helps lower body temperature during heat stress – helping keep animals on feed.
	Organic zinc that improves bioavailability of zinc, important for hoof health and immune system
Added Ammonium Chloride	To help reduce the incidence of urinary calculi (water belly)

Vitamin D ₃ , IU/lb	(min)	1,750
Vitamin E, IU/lb	(min)	50

FEEDING DIRECTIONS

Honor® Show Chow® Ewe Pellet is designed to be fed to gestating and lactating ewes. If ewes have not been accustomed to consuming high energy feeds, gradually adjust ewes to Honor® Show Chow® Ewe Pellet.

Once ewes are adjusted, feed Honor® Show Chow® Ewe Pellet at the rate of 1 to 1.5% of bodyweight per head per day during gestation. Feed 1.5 to 2% of bodyweight per day during breeding and lactation.

Also offer a good quality roughage source at all times. It is important to allow free access to clean, fresh water at all times. We also suggest allowing ewes free access to sheep mineral.

Reminder:

Feed is perishable and should be stored in a clean, dry, well-ventilated area so it will remain fresh and palatable. DO NOT feed moldy or insect infested feed to animals as it may cause illness, abortion or death.

Fresh, clean water should be available at all times.
