

Powerful Performance. Winning Results.

Showlamb Breeder Developer Pellet DX

Honor® Show Chow® Showlamb Breeder Developer Pellet DX provides well-balanced, well-fortified nutrition for developing breeding sheep without adding excessive body condition. It is pelleted and medicated with Deccox® to prevent coccidiosis. This feed is intended for breeding sheep requiring lower energy.

Honor® Show Chow® Showlamb Breeder Developer Pellet DX feed is supported by Purina Mills® Animal Nutrition. Get your best animals on Honor® Show Chow® Showlamb Breeder Developer DX pellet feed today so they can reach their full potential.

FEATURES	BENEFITS
Fully fortified with all essential vitamins and minerals	For excellent muscle growth and body condition
Pelleted	Helps reduce sorting
Formulated to provide a combination of both bypass and rumen degradable protein, using all-natural protein sources	Combination protein sources (from vegetable and approved animal sources) help meet the requirements of both the animal and rumen microbes, and helps increase muscle deposition
	Provides critical highly-available minerals that helps immune response which is critical for healthy traveling show lambs Helps maximize growth and muscle development- allows lambs to reach their full potential
 Confidence at the gut level™	A true, fully fermented yeast culture developed specifically for optimum animal nutrition. Research proven, Diamond V has a unique ability to enhance ration digestibility, palatability and intake by delivering a rich, all-natural nutrient source to the animal's digestive bacteria.
	Research has shown that TASCOS® helps lower body temperature during heat stress – helping keep animals on feed.
Contains appropriate energy for breeding sheep	Contains moderate energy level sufficient to support rapid growth, without making the lamb fat
Ammonium Chloride	Helps aid in reducing the incidence of urinary calculi (water belly)
Medicated with Deccox® (decoquinate)	For the prevention of coccidiosis - helps support normal immune system

Medicated for growing and finishing sheep. For the prevention of coccidiosis in young sheep caused by *Eimeria bakuensis* and *Eimeria crandallis*, *Eimeria ovinoidalis* and *Eimeria parva*.

Caution: Use as directed. For sheep only.

Active Drug Ingredient: Decoquinatate (15 g/ton)

FEEDING DIRECTIONS

Feed Honor® Show Chow® Showlamb Breeder Developer Pellet DX a rate of 2 to 4% of bodyweight, depending upon the desired growth and body condition. This feed is designed to provide 22.7mg Decoquinatate per 100 lb. bodyweight per day. In addition, offer about 1/4 to 1/2 lb per head per day of good quality long stem forage. Always provide an unlimited supply of clean, fresh water.

Warning:

Do not feed to sheep producing milk for food.

Caution:

Do not use in feeds containing bentonite.

Limitations:

Feed at least 28 days during periods of exposure or when experience indicates that coccidiosis is likely to be a hazard.

Reminder:

Feed is perishable and should be stored in a clean, dry, well-ventilated area so it will remain fresh and palatable. DO NOT feed moldy or insect infested feed to animals as it may cause illness, abortion or death.

Fresh, clean water should be available at all times.
