Honor® Show Chow® Showlamb Starter DX feed is supported by Purina Mills® Animal Nutrition. Get your best animals on Honor® Show Chow® Showlamb Starter DX feed today so they can reach their full potential.

FEATURES	BENEFITS
Pelleted	Helps reduce sorting
May be used as a creep or starter feed	Makes young lambs bloom
Correct balance of protein and energy	For desired growth rate and maximum muscle development
Formulated to provide a combination of both bypass and rumen degradable protein, using all natural protein sources	Combination protein sources (from vegetable and approved animal sources) help meet the requirements of both the animal and rumen microbes, and helps increase muscle deposition
Fortified with all the essential vitamins and minerals	For optimum growth and development of all show lambs
	Provides critical highly-available minerals that helps immune response which is critical for healthy traveling show lambs Helps maximize growth and muscle development- allows lambs to reach their full potential
 Confidence at the gut level™	A true, fully fermented yeast culture developed specifically for optimum animal nutrition. Research proven, Diamond V has a unique ability to enhance ration digestibility, palatability and intake by delivering a rich, all-natural nutrient source to the animal's digestive bacteria.
Ammonium Chloride	Helps aid in reducing the incidence of urinary calculi (water belly)
Medicated with Deccox® (decoquinate)	For the prevention of coccidiosis - helps support normal immune system

Medicated for growing and finishing sheep. For the prevention of coccidiosis in young sheep caused by *Eimeria bakuensis* and *Eimeria crandallis*, *Eimeria ovinoidalis* and *Eimeria parva*.

Caution: Use as directed. For sheep only.

Active Drug Ingredient: Decoquinatate (27.2 g/ton)

FEEDING DIRECTIONS

Feed Honor® Show Chow® Showlamb Starter DX as a creep feed to lambs and as a starter feed after lambs have been weaned. Feed at the rate of 0.5 lb per 30 lb body weight to provide 22.7 mg Decoquinatate per 100 lb body weight daily. Honor® Show Chow® Showlamb Starter DX may be fed for a longer time period where a high protein ration is desired before transitioning to Honor® Show Chow® Showlamb Grower. Designed to be fed with roughage, along with about 1/4 flake of a good quality alfalfa hay per day.

Tips for starting young lambs on feed:

Offer straight soybean meal in the creep feeder when lambs are 7 to 10 days of age. Offer Honor® Show Chow® Showlamb Starter DX Pellet 7 to 10 days after beginning soybean meal. Remove soybean meal 7 to 10 days after introduction of pellets.

Caution:

Do not use in feeds containing Bentonite.

Reminder:

Feed is perishable and should be stored in a clean, dry, well-ventilated area so it will remain fresh and palatable. DO NOT feed moldy or insect infested feed to animals as it may cause illness, abortion or death.

Fresh, clean water should be available at all times.
