**Medicated for the control of swine dysentery associated with *Serpulina hyodysenteriae* susceptible to tiamulin and for treatment of bacterial enteritis caused by *Escherichia coli* and *Salmonella Choleraesuis* sensitive to chlortetracycline and treatment of bacterial pneumonia caused by *Pasteurella multocida* sensitive to chlortetracycline.**

**Active Drug Ingredient:** Tiamulin (*as hydrogen fumarate*) 35 g/ton  
Chlortetracycline 400 g/ton

## FEEDING DIRECTIONS

Honor® Show Chow® Showpig Prep DEN/CTC Med. is designed to feed to pigs from 30 to 75 lb. Feed for at least 2 weeks prior to sale.

**Special Considerations:**

Protect from excessive temperatures (temperatures that exceed 40°C or 104°F). Do not store at warm temperatures up to 104°F (40°C) for more than 7 days.

**Caution:**

Not for use in swine weighing more than 250 lbs. Do not feed to animals other than swine. Use as the only source of Tiamulin and Chlortetracycline. Swine being treated with Tiamulin should not have access to feeds containing Polyether Ionophores (E.G. Monensin, Salinomycin, Narasin, Semduramicin and Lasalocid) as adverse reactions may occur. If signs of toxicity occur, discontinue use of medicated feed.

**Warning:**

Withdraw 2 days before slaughter.

**Reminder:**

Feed is perishable and should be stored in a clean, dry, well-ventilated area so it will remain fresh and palatable. DO NOT feed moldy or insect infested feed to animals as it may cause illness, abortion or death.

Fresh, clean water should be available at all times.
